

Artificial Intelligence:

Was kommt und wie bereitet man sich vor?

Uwe Mueller

Director Cloud & AI Infrastructure, CAI

September 2024

Any Similarities between Browser and AI ?

Quelle: ChatGPT,
<https://www.mozilla.org/de/firefox/browsers/browser-history/#:~:text=Der%20britische%20Informatiker%20Tim%20Berners,Zugang%20zum%20Internet%20,WorldWideWeb>“.

Cisco AI Readiness Index

- Overall
- Strategy
- Infrastructure
- Data
- Governance
- Talent
- Culture

Europe | Select an industry [GLOBAL] | Germany

Global readiness

Europe

Germany

Habt Ihr konkrete Aktivitäten rund um Künstliche Intelligenz (KI)?

- Implementierung von privater Infrastruktur dafür ist abgeschlossen/im Gange
- Ist in die Planungen mit einbezogen
- Machen wir in einer Public Cloud Infrastruktur
- Nicht bekannt

Planen Sie eine durchgehende (Security) Policy für Campus, Data Center und Cloud?

- Ja, alles zusammen
- Ja, für Campus & Cloud
- Ja, für Campus & DC
- Ja, für DC & Cloud
- Nein

Welche Aspekte von KI nutzt Ihr bzw. wollt Ihr nutzen? (Mehrfach Auswahl möglich)

- Fertige Modelle von der Stange anwenden (Inferencing)
- Grundmodelle leicht anpassen und anwenden (Fine-Tuning + Inferencing)
- Keine KI Anwendungen in Sicht
- Wir trainieren eigene große Modelle über GPU Grenzen hinweg (LLM Training)
- Wir trainieren eigene kleine Modelle (SML Training)

Wie in vergangenen Jahren möchten wir erneut wissen, wie Ihr mit dem Thema Automatisierung weitergekommen seid?

- Implementierung läuft gerade
- Ist aktiv im Einsatz
- Nein

1. 79% are planning or implementing AI Infrastructure
2. 43% are Inferencing or Tuning
3. Security Solution: 32% for DC+ Campus+Cloud, 27% DC+Campus
4. 77% need more Automation

Agenda

- AI: Hype or Real?
- Welche neue Fragen stellen sich?
- Cisco AI Ready Datacenter
- Wie kann Cisco unterstützen?

Technology Trends Driving Investment

GENERATIVE AI

80% adoption in 3-years⁴

Biggest disruption since cloud

APPLICATIONS

750M new workloads deployed¹

Dense, and Diverse

DIGITAL RESILIENCE

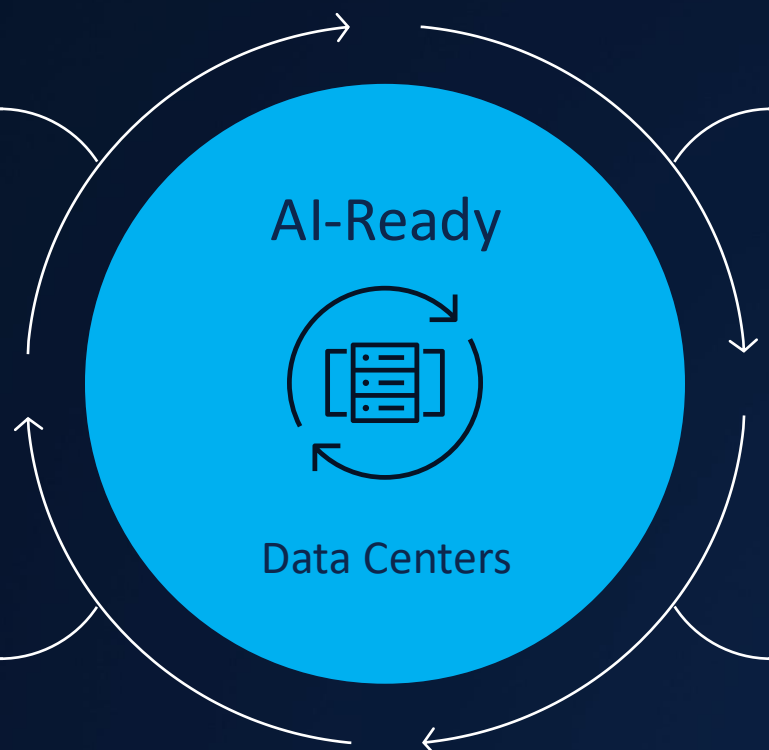

\$336K cost of an hour of downtime³

Prevent and respond to disruption

HYBRID MULTICLOUD

49% of workloads on-prem²

Distributed and Optimized

Sources: 1. IDC 2. Flexera 3. Splunk 4. Gartner

1

Modernize infrastructure

Build modern, resilient infrastructure

2

Cybersecurity

Protect against the threats of today and tomorrow

3

AI and data

Harness the power of AI and data

Accelerate growth across AI, hyperscalers, rest of cloud

Hyperscalers¹

- AI²

TAM CY27	TAM CAGR CY25-27
\$20.5B	28%
\$8.8B	18%

Technology leadership

- 20 use cases in production, 25% in AI
- 17 design wins, 65% in AI
- 12 use cases in pipeline

Selling models

- Fully integrated systems
- Grey box
- Optics
- Optical
- Silicon

Enterprise and rest of cloud³

- AI²

TAM CY27	TAM CAGR CY25-27
\$64.9B	9%
\$9.8B	29%

- HyperFabric for AI
- Digital Experience Assurance
- Secure Connectivity: private to public cloud

Selling models

- Orchestration & automation
- Fully integrated systems
- Compute (GPU and x86)
- Optics
- Optical

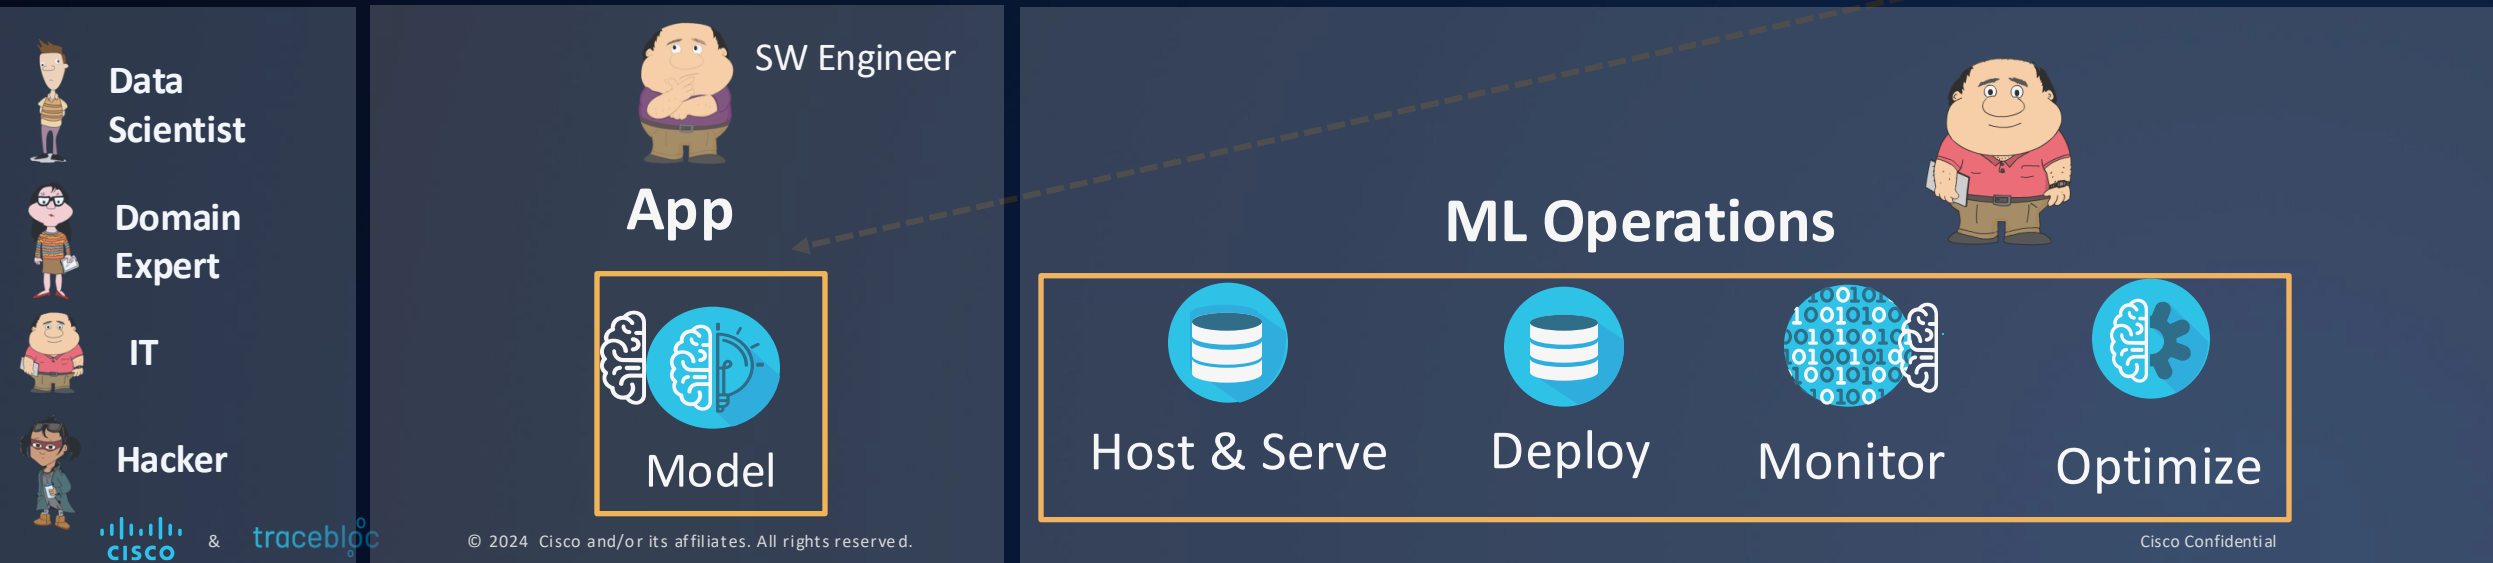

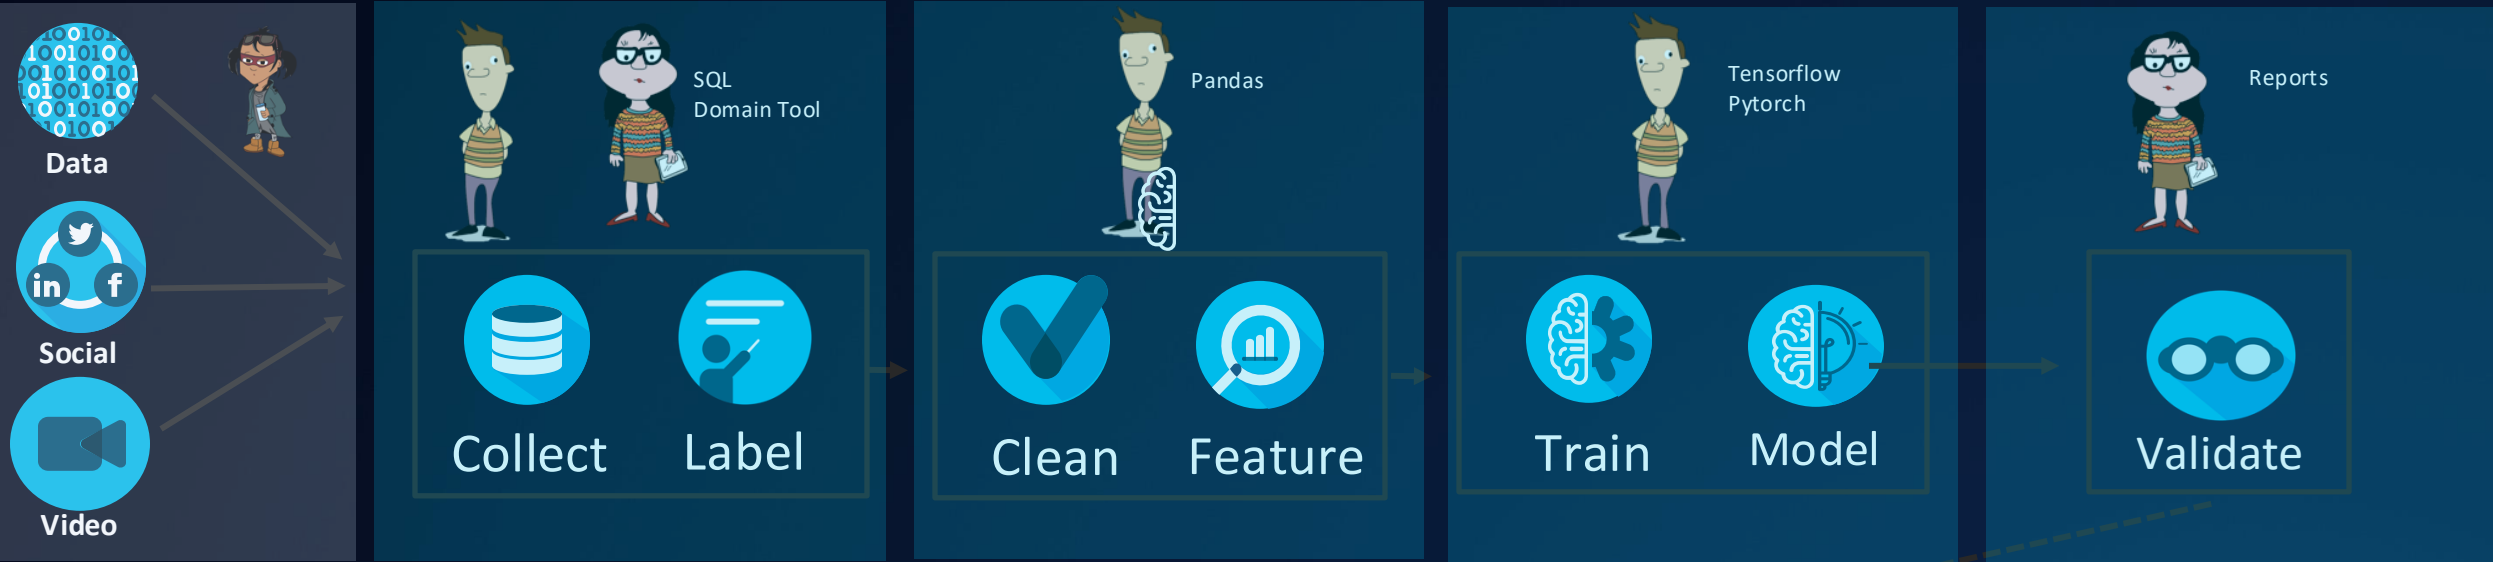

1. Includes DC Switching (Managed, Fixed-Unmanaged, Infiniband) Silicon & Optics. Does not include Server, Storage, Software and Services
 2. Includes AI DC Switching (Mgd + Infiniband) and Direct Purchase Ethernet Optics
 3. Includes Enterprise Data Center and second-tier cloud providers. Numbers include Mgd DC Switching, x86 Blade Servers, Silicon & Optics, Cloud related M&O S/W, Compute aaS

Welche neue Fragen stellen sich?

Es geht darum, Daten nutzbar zu machen,
Zusammenhänge zu erkennen, neue
Informationen zu generieren, um damit
intelligente Automatismen für Menschen in
positiver Weise zur Verfügung zu stellen.

AI brings New Roles and Responsibilities

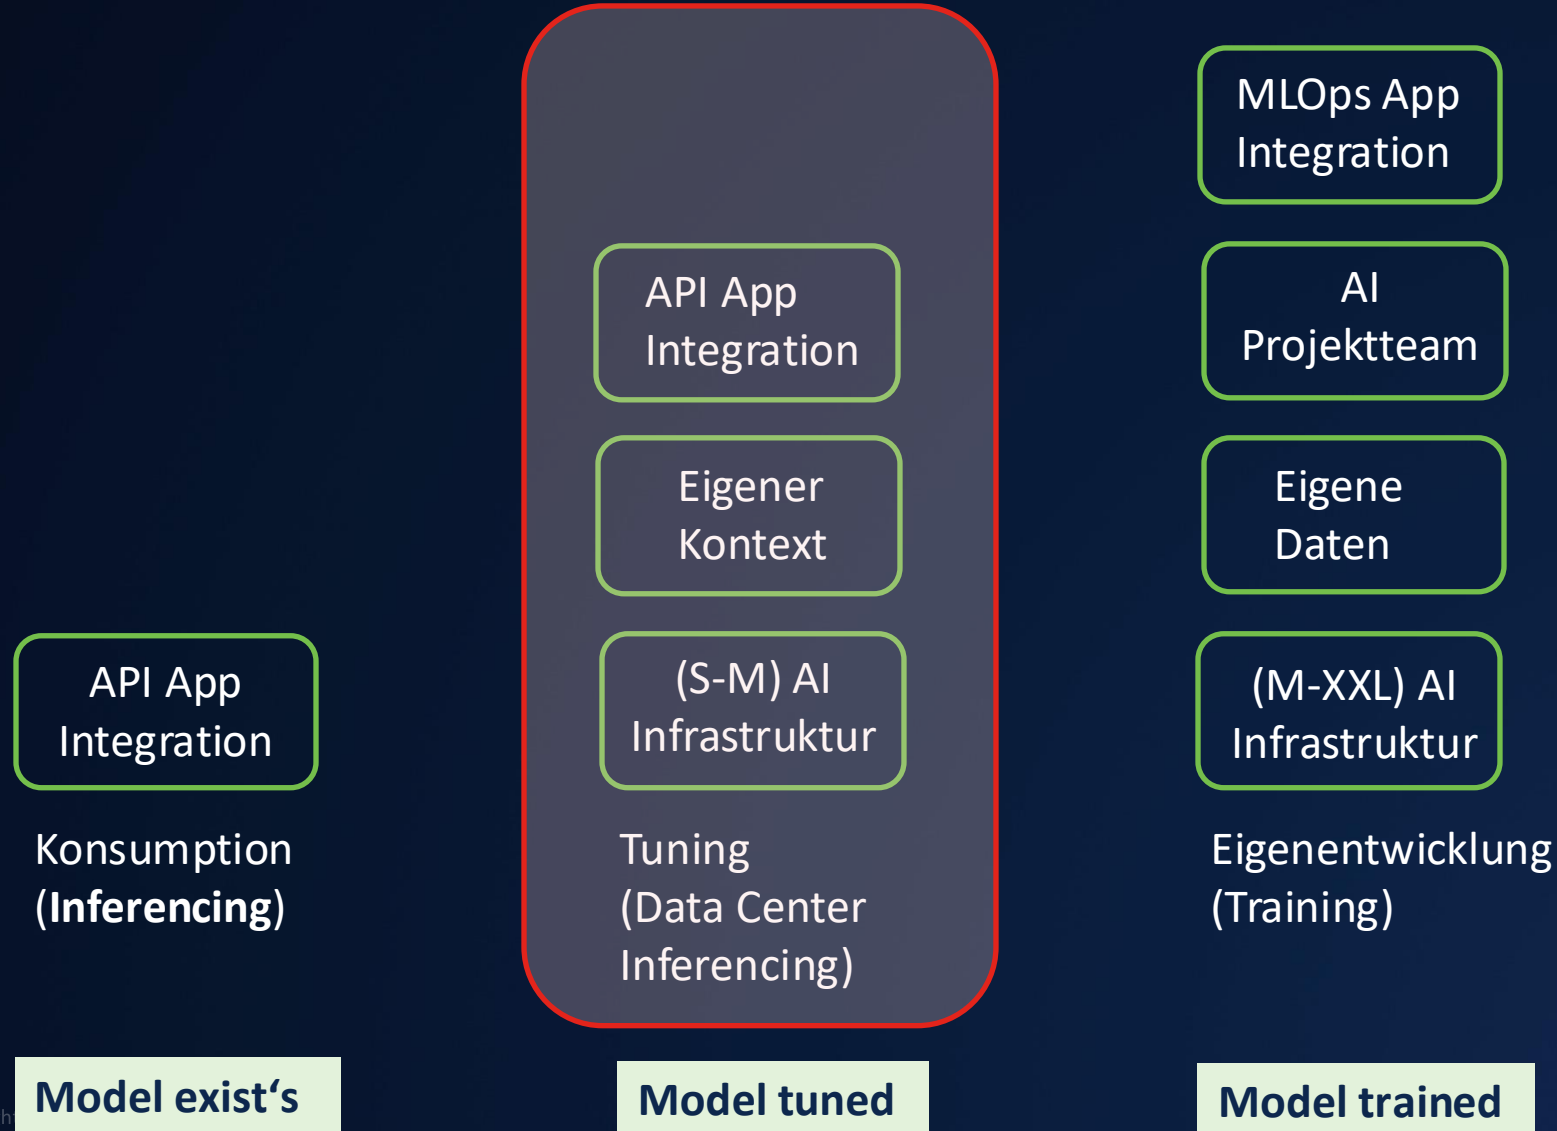

Which Model is the right one ?

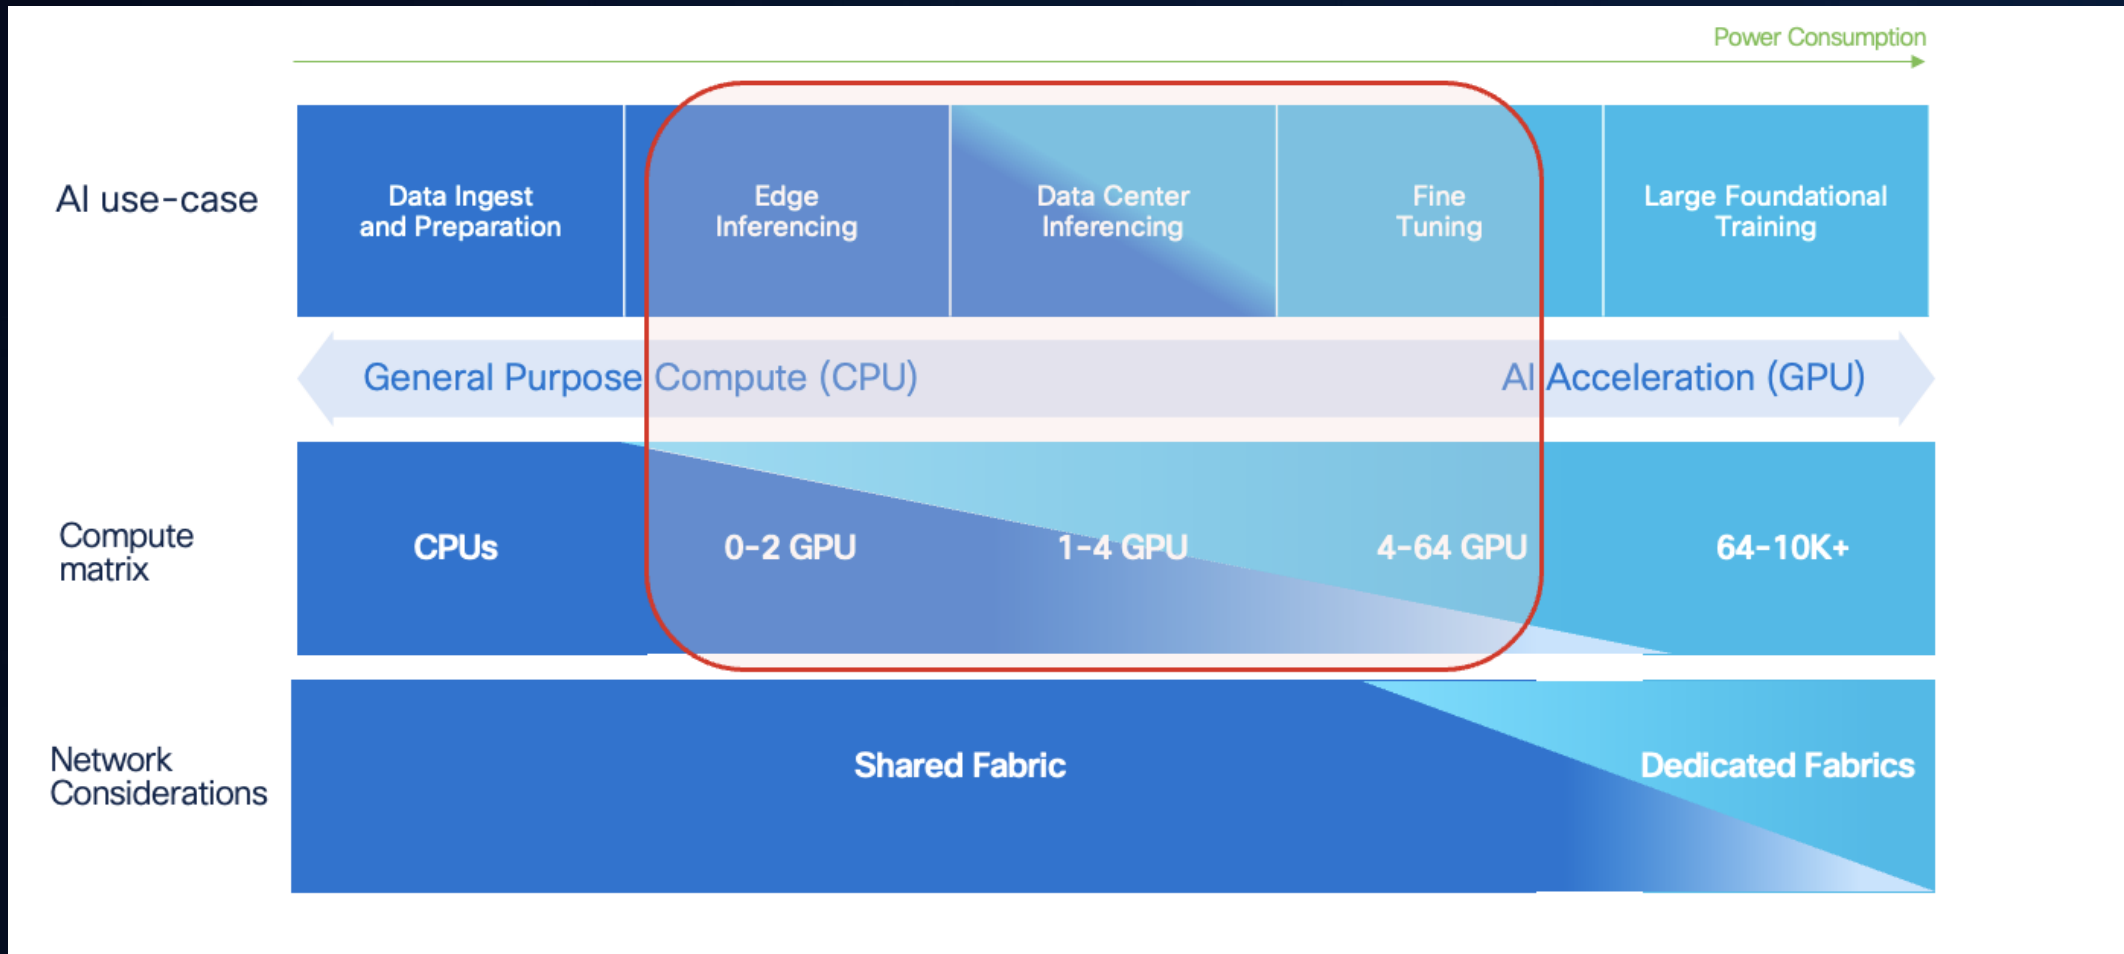

tracebloc enables AI partners to fine-tune their models on companies' data

Which Infrastructure for which model? Inferencing, Tuning, or Training

Which GPU is the right one for AI?

Cisco AI Ready Datacenter

AI-Ready Data Centers

Transform data centers to power AI workloads anywhere

Distributed AI
Infrastructure

Full Stack
Systems

AI Infrastructure
Operations

Cloud
Protection

Digital Resilience: security, reliability, and performance

Data Center Infrastructure

For Enterprise Applications

Infrastructure for multicloud supporting a diverse and distributed application landscape

For Generative AI

Accelerated Data Center Networking, Compute and storage for AI workloads

Cisco GSX

Cisco Data Center Networking

Cisco Nexus Dashboard

Private cloud managed, flexible solution

- General purpose data center solution
- Greenfield and brownfield deployments
- Any size spine-leaf data center (NX/ACI)
- Nexus Dashboard for simplified operations
- CloudScale and Silicon One based switches

* Shipping

Cisco Nexus Hyperfabric

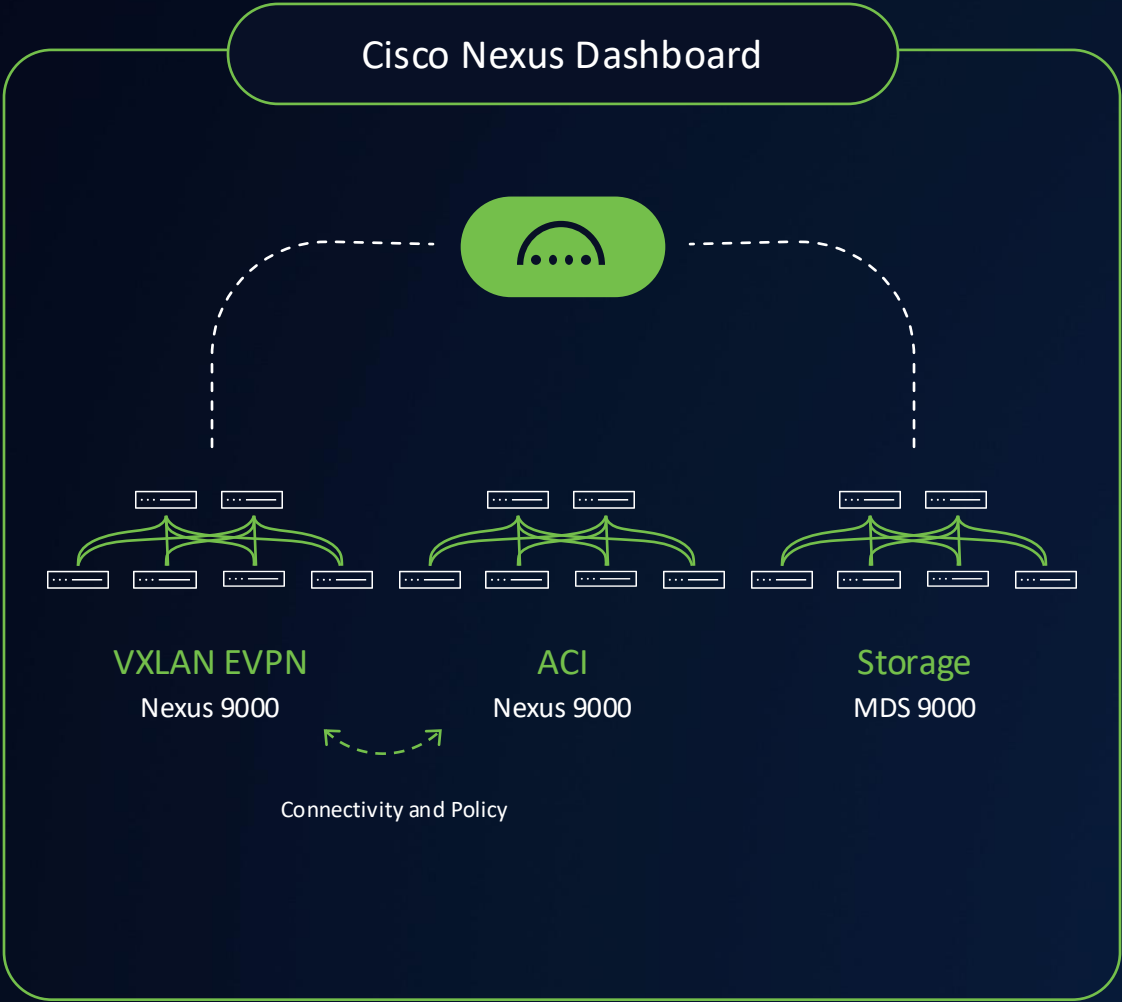

Cisco cloud-managed, fully integrated

- Easily design, order, deploy, monitor and upgrade fabrics
- Purpose built vertical stack
- Greenfield deployments only
- Cisco 6000 series switches (Silicon One)

Cisco GSX

Nexus Network Innovation

Nexus ONE

Evolve fabric architecture for consistent user experience using open networking

Standards Based

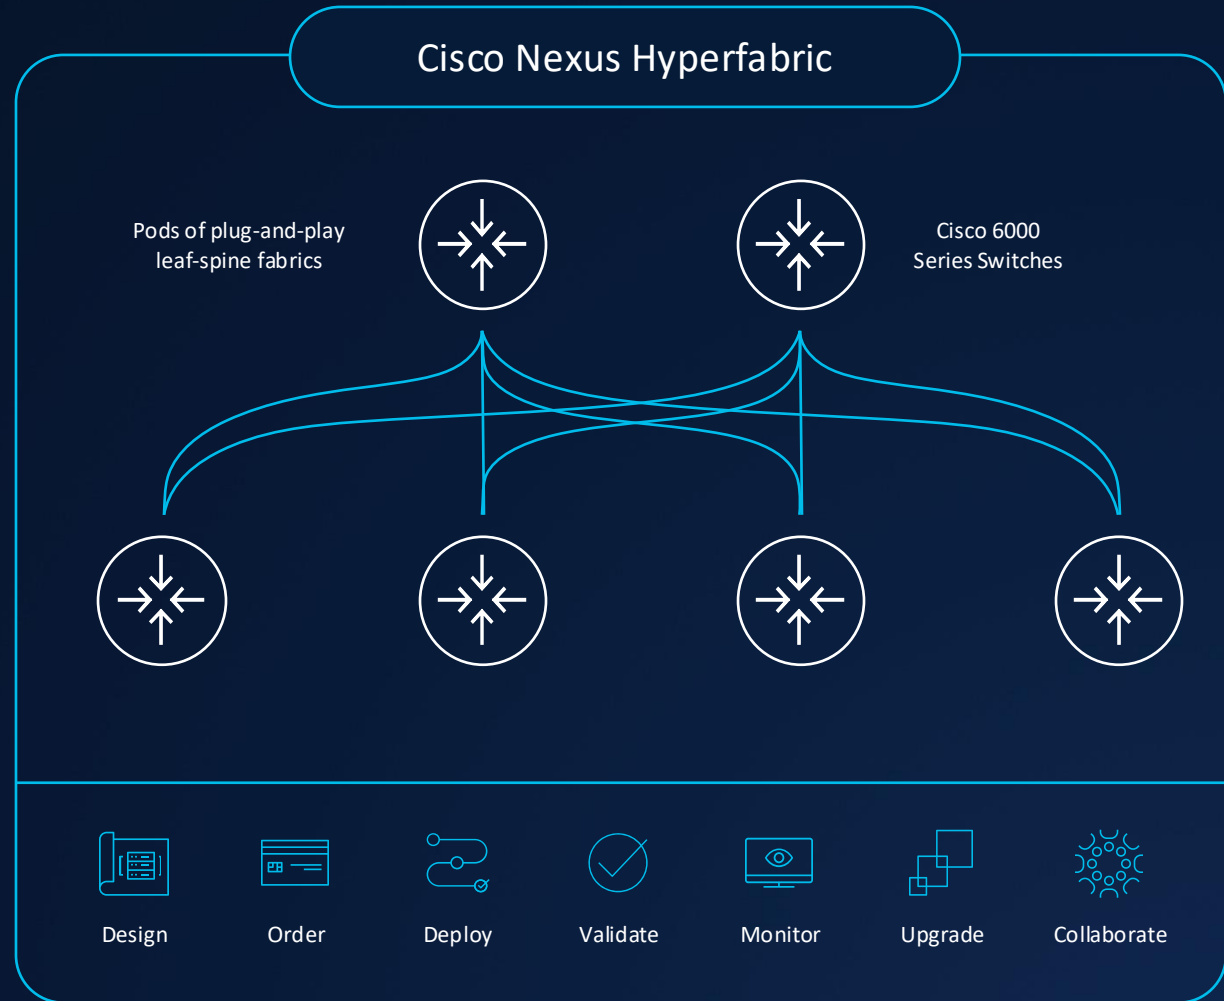

Configure and connect fabrics using open networking protocols

Cisco Nexus Hyperfabric

Design, deploy and operate on premises fabrics located anywhere

Easy enough for IT generalists, application and DevOps teams

Outcome driven by a purpose-built vertical stack

ORDERABLE 2HFY25

Cisco Nexus Hyperfabric AI Cluster

High-performance Ethernet

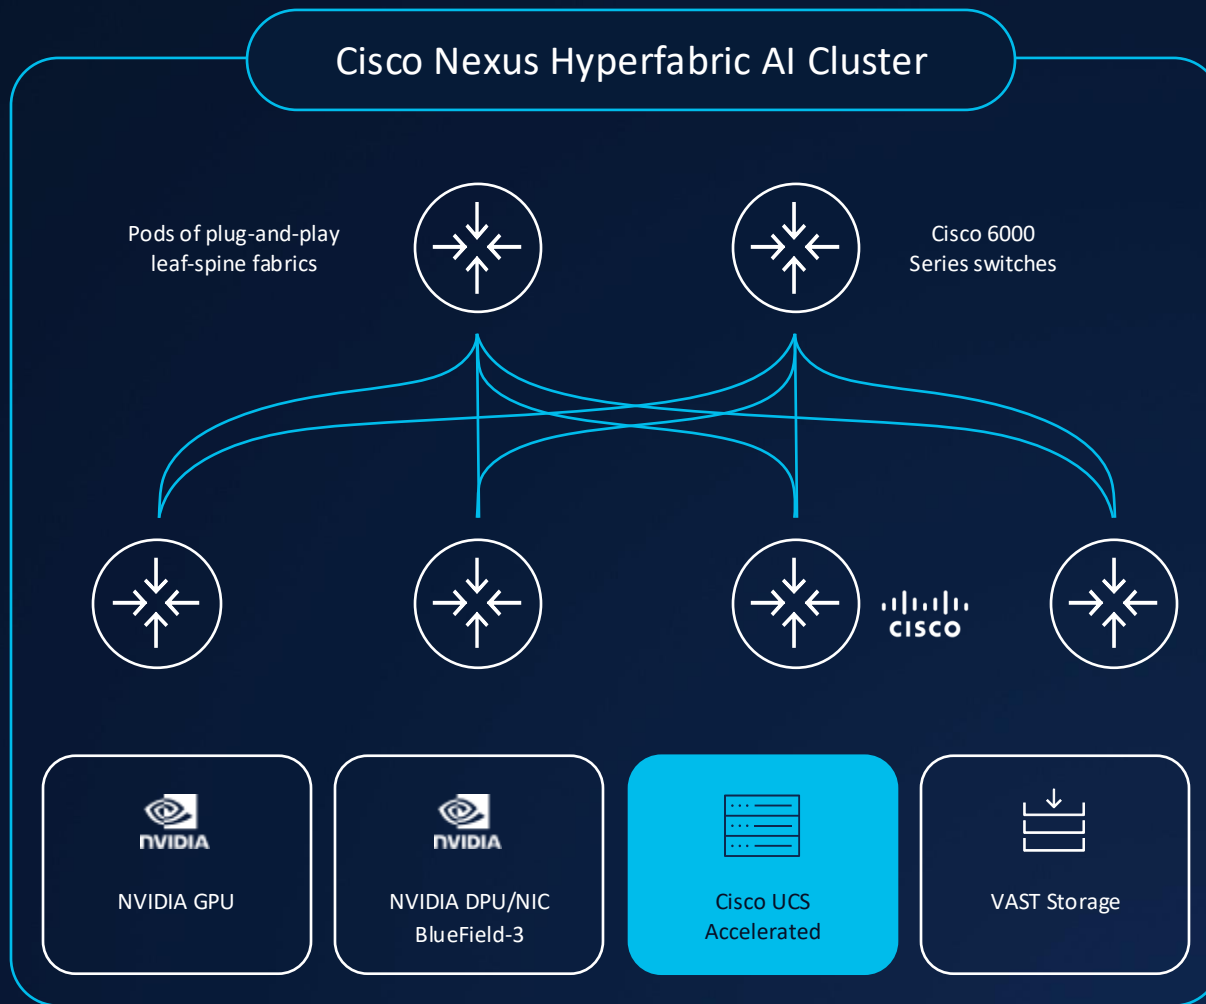

Cloud-managed operations

Unified stack including NVAIE

AI-native operational model

Democratize AI infrastructure

Visibility into full stack AI

Cisco GSX

Simplified Orderability

AI PODs

Faster time to value with pre-configured bundles

ORDERABLE THIS QUARTER

Deploy AI with confidence

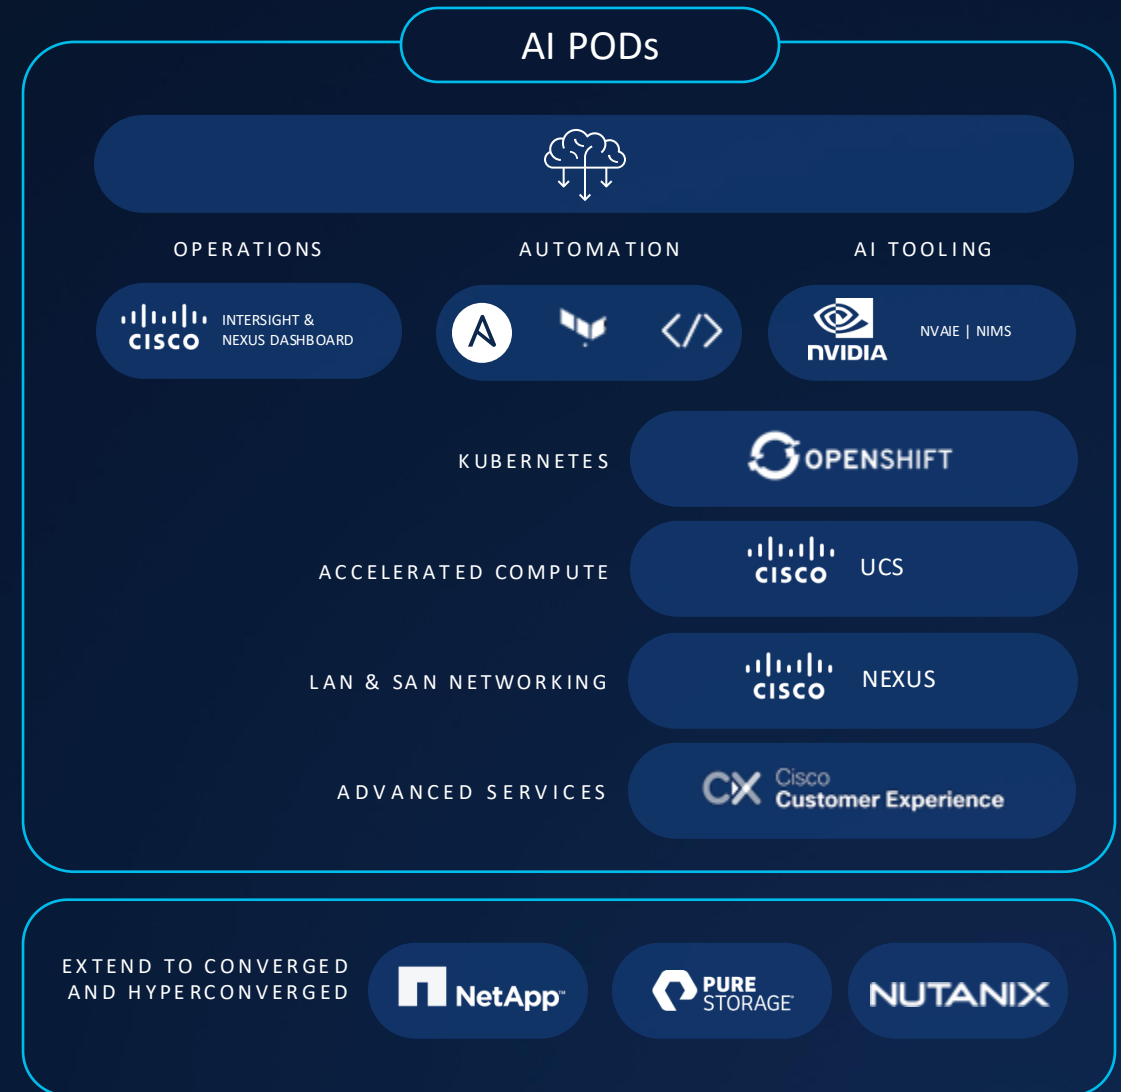

Orderable, validated AI-Ready infrastructure stacks

Fully supported stack including Cisco and 3rd party components

AI Advisor tool for configuration guidance

COMING SOON

Cisco AI-Ready Infrastructure Stacks

Cisco GSX

How Cisco can help to build your AI ready Datacenter?

Cisco AI Infrastructure

(for the Generative AI era)

Build the Model | Training

Optimize the Model | Fine-tuning & RAG

Use the Model | Inferencing

Model the World | Digital Twin

CLOUD MANAGED AI INFRASTRUCTURE

Cisco supports customers along any starting point of their AI journey

Cisco can support you in AI:

- **Use Cases Development:** Cisco + Partner Ecosystem
- **Education:**
 - Business Level : Events, EBC
 - Technical Ebene : AI Seminars, Certs, Test Drives
- **Technology:** AI Fabrics, AI PODs, Cross Architecture
- **Demonstration:** Next Gen AI Lab, POC
- **Statement of Work:** Partner, Cisco Services (CX)

The bridge to possible
